

Dear BAS Families,

During our State of Michigan directed school closure, BAS will provide opportunities for students to continue their learning at home. Our Curriculum Team is sharing extended learning opportunity documents to be utilized by students and families. The link and information can be found by [clicking here](#).

Extended Learning Opportunity resources:

- Organized by grade bands: JK-2, 3-4, 5-8, and 9-12
- Suggested materials are listed including a Learning Journal
- Live links to access online sites are included
- Intended to extend and maintain learning skills
- Will be released weekly throughout the school closure
- Learning opportunities ARE NOT required for students, therefore participation will not impact student grades

At this time, BAS is planning for the possibility of long term online/at-home learning based on potential federal and state mandates. Looking ahead, families who may need access to an internet connection or home technology should fill out our online form by [clicking here](#). As the district receives directives, we will update families in a timely manner. We thank you for your patience and support doing this time.
