

## Sketch-Up Design

Use Sketch-Up to design an original building or house.  
Try to include the following features in your design.

- Front door
- Windows (with sills and frame details)
- Exterior materials (brick, glass, siding, etc.)
- Use proper proportions (size and scale)
- Structure details (overhanging brick, awnings, etc.)
- Roof details (chimney, outdoor space)
- Sidewalks, alleys, and streets.
- Any other interesting features (garden, swimming pool, shed)
- Be creative and have fun

Two-Story House

Example of a Sketch-Up city block

Here are some examples of building designs

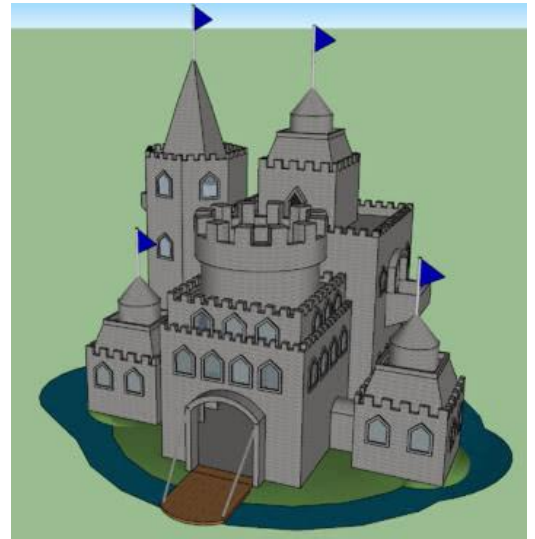

Cabin

A-Frame

Dog House

Castle

Tiny House

Shed
