

File - Document setup - **landscape** (wider paper but not as tall)

Drag the bronco to illustrator from the class website

Increase the size of the bronco to fit the entire area of the page (hold down shift and stretch the size)

Create a layer for the image

Window - Layers Palette - double click on layer 1 - rename it "original" put checkmark next to template

Create a second layer for the trace

Trace all of the bronco parts using the pen tool

No fill, Stroke = 1 pt size thick)

You **do NOT** need to fill in the color just do the tracing

When you are ready to print first use the text tool to type your name

Make your bronco
fill up this space
