

Create an iMovie Personal Portfolio

You are to create a video of all the work you created in this class. When it's complete it will be one file you can keep as part of your high school portfolio.

Use your files you have created in this class to do the following:

- Create a New iMovie Project
- Import Images Into iMovie ----- EVERYTHING MUST BE AN IMAGE (.png, .gif, .jpg)
- Organize Clips
- Clip Adjustments
- Adding Titles
- Adding Transitions
- Sharing Your Video

This is a list of class projects: If you don't remember what one of the assignments are: [Class Website](#)

Scene

Tracing WMU logo

Typography name self info

InDesign 4 parts

How do you use iMovie?

If you have a small white box attached to your computer you are using a Mac Mini: [iMovie 6 Help](#)

If you just have a monitor with a built in hard drive you are NOT using a Mac Mini: [iMovie 9 Help](#)

[And even more help!](#)
