

PERSONAL WORD COLLAGE

Directions: In Illustrator create a collage of the words that best describe you. Use the personality test and your list of descriptive words to get you started. Choose different fonts, colors, sizes, and direction. The larger the words the more important.

USE Illustrator.

The document must be 8.5 x 11 (either landscape or portrait)

Choose many colors, sizes, and directions of text.

Add in a background (use a rectangle shape and fill it with color)

FIRST---Create your name with the clipping mask

The largest words must be your name. Use your first and last name with the clipping mask directions to add in an image in the background of those words.

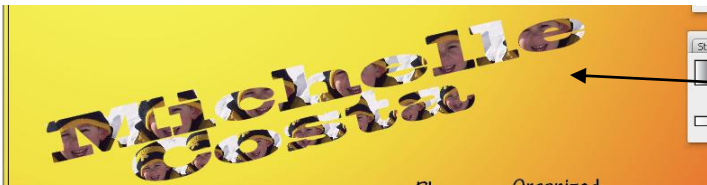

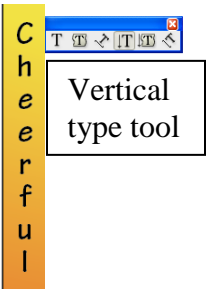

- type your first and last name in a big bold font.

- File and PLACE the image you will use inside your name

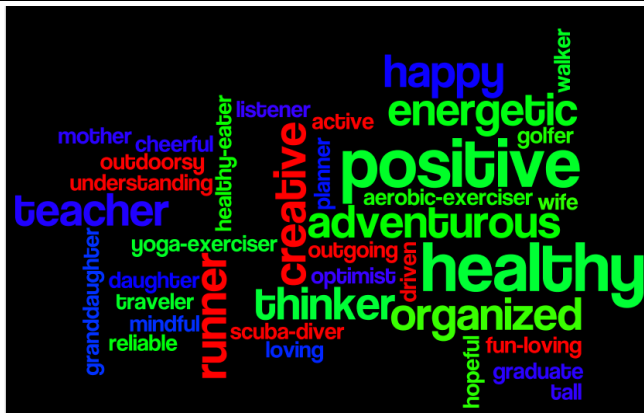

- Object, Arrange, Send to back - the image

- Object, Clipping mask, Make – to create the effect inside your name

- ++with only the image selected, you can move it around the way you want

Example of Clipping Mask – image inside of my name

Examples with same words but different looks, layouts, fonts, and sizes

Use Create outlines, multiple strokes, type on path, effects (drop shadow, warp)
